Our Ronald McDonald House Turns 10!

CELEBRATING A MILESTONE: RONALD MCDONALD HOUSE TURNS 10!

This month, we celebrate the "home-away-from-home" for parents of children receiving treatment at National University Hospital's Paediatric Intensive Care Unit. Since opening our doors in January 2013, we have since provided more than 12,290 nights of accommodation to some 1,070 families.

To mark this joyous occasion, we invited 10 past beneficiaries to come back to the House that love built, hosted by Board Members, Staff and Donors. Together, we created new memories in the space they once knew.

The Community That Showed Up

Remember Baby Zayn? At just 5 weeks old, Zayn, was in the news here in Singapore for the hefty medical bills from a prescription gene therapy that he needed after being diagnosed with Spinal Muscular Atrophy (SMA) Type 1 – a genetic neuromuscular disease that causes muscles to become weak.

Read on as his parents, Nabeel and Syahirah recount in their words, their 4-month stay at the Ronald McDonald House while they fought hard along with Zayn.
